Education

B.Tech, Computer Science and Engineering

2023 - 2027

Indian Institute of Technology, Dharwad

CGPA: 8.50

Experience

Software Development Engineer Intern - Siemens

July - Dec 2026

AWS, Datadog, Jira, CI/CD

- Developed an automated pipeline to identify missing Datadog monitors across AWS resources and generate reports highlighting monitoring gaps
- Automated Jira ticket creation for detected monitoring gaps, enabling systematic tracking and remediation of infrastructure monitoring issues
- Implemented validation logic to reconcile Jira ticket status with actual monitor configuration on subsequent pipeline runs, automatically validating resolved issues or reopening tickets when monitors remained missing
- Contributed to the migration of team repositories from GitLab to GitHub Enterprise, supporting repository transition and workflow validation

Freelance Web Developer - IIT Dharwad Websites

Jan - July 2025

React, Tailwind, Strapi, Nginx

- Developed and deployed multiple institute websites (R&D, Civil Dept.) using React and Strapi CMS
- Designed responsive and accessible UI, enabling non-technical staff to manage content independently
- Deployed on Linux VM using Nginx, handling server configuration and hosting

Projects

AI Agentic Pipeline for VC Decision Support

Inter IIT Tech Meet 14.0

Python, FastAPI, Pathway, MongoDB, Kafka, LLMs (RAG)

- Built an agentic RAG to assist VCs in evaluating startups using real-time data from applications and meetings
- Designed a multi-agent pipeline to automate pitch screening and generate decisions based on VC preferences
- Enabled real-time transcript indexing for live meeting Q&A and automated extraction of CRM and due diligence
- Developed scalable backend integrating FastAPI, Kafka CDC, and Pathway for streaming data processing

VerifyIT - Student Leave & Security Management System

React Native, TypeScript, Node.js, Express, MongoDB, Firebase, Nodemailer

- Built a mobile leave-management system with role-based workflows for students, wardens, and security staff
- Implemented QR-based entry/exit tracking with timestamped activity logs and status updates for security operations
- Developed REST APIs with role-based access control and MongoDB integration; integrated Firebase authentication and Nodemailer-based email notifications

Skills

Languages: C, C++, Python, JavaScript

Web & Backend: React.js, React Native, Node.js, Express.js, FastAPI, REST APIs, Strapi CMS

Databases & Infrastructure: MongoDB, MySQL, AWS, Nginx, Git, GitHub, Bash, Postman

Extra Curriculars

- **PR Team Member** Career Development Cell, IIT Dharwad
Coordinated placement process of 10+ companies managing communications and logistics
- **Python Workshop Mentor** IIT Dharwad
Mentored students in Python programming covering topics like data structures, OOP and problem solving.
